## The Lord Knows the Way! Do we?

Have you ever wondered why squirrels rush into the highway in front of cars? I recently saw a furry critter run out into the street, he dodged between the wheels of the vehicle in front of me. This critter did a double-somersault, a triple-axle and a slalom move much like athletes who take part in the Olympics. The good news is, the squirrel lived, as for the car in front of me, it ended up in the ditch!

Some days we feel like the squirrel running to get away and on other days, we are desperately swerving to miss the distractions and detours, those things that can send us head-first into the ditch. If this is you, it's not too late to trust God with your steps, and with your heart. He is ready to guide you to safety. He's the crossing guard of our life!
