Prior to joining **Christ Hope and Reconciliation Ministry (CHARM)** as the Director of Relations, Tommie was the Director of the Innerchange Freedom Initiative (IFI), the nation's first faith-based prerelease program for returning citizens. During his two-decade tenure at IFI, he developed many innovated programs which have been implemented in many Texas correctional facilities. He has worked with many congregations and community organizations to create The Houston Reentry Coalition, a network that assists returning citizens and their family members. Additionally, he collaborated with Houston Habitat for Humanity to develop a prisoner community service partnership, which resulted in a job skills training program for incarcerated individuals and hundreds of families becoming first time home owners.

He's currently a board member for several non-profit organizations and President of Grace Freight Trucking, which trains and employs returning citizens.

Prior to his work at IFI, Tommie developed his passion for working with incarcerated individuals during his tenure with the Texas Department of Criminal Justice (Parole Division). A graduate of Texas Southern University, he and his wife Tonja have been married for 30 years.
